BETELHEM SEFIW

Frontend Developer | Python Developer

Addis Ababa, Ethiopia • +251 930908051 • betelhemsefiw28@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with a strong foundation in web development and Python programming, building toward a career in full-stack development and AI. I am seeking opportunities to apply my skills to real-world projects, learn from experienced developers, and grow into an engineer who builds practical applications with modern web and AI technologies. Experienced with responsive interfaces, RESTful APIs, databases, and collaborative software projects.

EDUCATION

Addis Ababa Science and Technology University (AASTU)

Bachelor of Science in Software Engineering | Expected Graduation: 2029

- **Relevant Coursework:** Web Development, Database Management Systems, Data Structures & Algorithms, Object-Oriented Programming, Artificial Intelligence Foundations.

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

Frontend Development: HTML5, CSS3, Responsive Web Design, DOM Manipulation

Backend: Django, RESTful APIs

Database: SQL, PostgreSQL

Tools & Workflow: Git, GitHub, API Testing

Core: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

PROJECTS & COMPETITIONS

Personal Finance Tracker — JavaScript, Python, HTML, CSS

- Built a web application for tracking income, expenses, and personal finances.

Weather App — Python, API Integration

- Built a weather application that retrieves and displays weather data through an external API.

Contact Management App — Python, Tkinter, JSON

- Built a desktop application for adding, searching, editing, and managing contacts.

Alien Invasion Game — Python, Pygame

- Developed a 2D game while practicing object-oriented programming and event handling through Python Crash Course.

Student Management System — Python

- Developed a system for managing student records, including creating, updating, searching, and deleting data.

Lunch Menu & Pickup App — HTML, CSS, JavaScript

- Developed a web application for viewing lunch menus and managing food selections.

AASTU Innovation Hackathon

- Collaborated with a team to develop and present a functional software prototype.

CERTIFICATIONS & ACHIEVEMENTS

- **GDG On Campus AASTU —** Mentorship Program, Beginner Track | *November 2025 – April 2026*
- **GDG On Campus AASTU Hackathon —** First Place, Beginner's Track (***Club-connect)*** **|** July 20, 2026.
- **freeCodeCamp —** Python Certification |August 12, 2026.
- **5 Million Ethiopian Coders —** Artificial Intelligence Fundamentals |May 8, 2025.

EXTRACURRICULAR & TECHNICAL LEADERSHIP

Google Developer Groups (GDG) On Campus

Active Member & Workshop Participant

- Participate in hands-on workshops, technical sessions, and coding activities focused on web development and emerging technologies.
- Collaborate with other student developers through peer learning, technical discussions, and project-based activities.
- Expand practical development skills through community learning and collaborative projects.
